

May 1, 2009

Members of the Board,

I have developed a company called The Safe Web, LLC. It houses an internet **Web browser** named wutsgood.com. Many people ask, what is a **Web browser**? A **Web browser** is a software application which enables a user to display a web page. Our **Web Browser** specifically protects children ages 5-17 from sexual predators, cyber bullying, cyber stalking and gang recruitment/activity. Our solution also prevents children from viewing inappropriate websites to include adult social networking sites. My goal is to make sure that all children are protected while being educated and entertained on the internet. I'm committed to keeping my service affordable to all children which is why the cost is \$19.95/annually.

We have been endorsed by Glenn Ivey, Prince Georges County, MD States Attorney, Ron Watson, Prince Georges County, MD Board of Education Vice Chairman, Valerie Ervin, Montgomery County, MD Council Member, Herb Jones, National Center for Missing and Exploited Children Vice President, law enforcement, media, teachers and parents. In the month of March we began working with Prince Georges County Public Schools to establish a pilot program in several schools. In addition, we joined forces with Grace Brethren Christian Church in Clinton, Maryland as a fundraiser vendor for the Band.

Please visit my site at www.wutsgood.com, in which you can download the **Web browser**, however you will not be able to access the site, due to our strict "children only" policy without a staff member present.

For further details about The Safe Web, LLC, I've attached an Information Packet, Flyer, Commercial, Public Service announcement (currently running on Harvest Radio in New Jersey), letters of endorsement from local leaders and a flyer for our Child Internet Safety Expo on May 8, 2009.

I look forward to the opportunity to present my vision to protect all children from foul play on the internet. Thank you for taking the time to read this letter.

Sincerely,

C. Ray Spires, President/CEO
The Safe Web, LLC
